MEMORANDUM FOR: [redacted] O/DDI

SUBJECT : Strategic Warning Capabilities

1. Attached are two advance copies of the Summary section of the study I was charged with doing on the strategic warning problem at the request of John Bross. The annexes--all completed--are in printing and should be available early next week.

2. The study has been coordinated with OCI, OSR, OER, IRS, INDICO, FBIS, DCS, ONE, DDS&T, and DDP. [redacted] has not yet seen it, but he is aware that it is in process. The DDI might want to send one of the attached copies of the summary to him before sending the full package to Mr. Bross.

3. At the Warning Working Group meeting this morning, [redacted] polled the members for progress reports on their contributions to the project. As I expected, neither State nor NSA has done anything and DIA has only a brief general statement to turn in. Their sentiment was that because CIA was doing a fairly detailed study, there was no need for all hands to go through the same exercise. They preferred to await the CIA report and comment on it.

[redacted]
Special Assistant for Production
Current Intelligence
